- **Any relevant background information about areas affected.**

On December 31, 2019, the Chinese authorities informed the World Health Organization (WHO) of a group of pneumonia cases of unknown origin that occurred in the city of Wuhan, Hubei Province. On January 7, 2020, the Chinese authorities have isolated a new type of coronavirus, called COVID-19, responsible for this epidemic. On 20 January 2020, confirmed cases of COVID19 infection were reported outside China, including Thailand, Japan and the Republic of Korea. On January 30, the WHO declared the outbreak of COVID-19 as a public health emergency of international concern. ***Senegal has identified 45 priority districts for COVID19 preparedness out of the 78 in the country.***

As part of the epidemic surveillance, the Ministry of Health and Social Action (MSAS) alert unit contacted the Dakar Health West District on February 28, 2020, at approximately 11:00 a.m. for a suspected case of COVID-19. The information came from a doctor working at SOS Medicine. This suspected case exhibited signs after a recent trip to France. The samples taken on 02 March 2020 proved positive for COVID-19.

In this context, the Operational Centre for Health Emergencies (COUS) was activated on 2 March 2020 and an incident management system was set up.

As of April 15, 2020, there are 314 total confirmed of COVID19, of which 190 have now recovered. In terms of new cases, as of today, there are 15 confirmed cases out of 227 tested of which 1 community case and 14 are pre-exposed contacts that were being monitored.

- **Host government position:**

- A contingency plan was activated on 14 March; mobile hospitals deployed by the national army,
- Ban on all public events for one month
- Cruise ships not allowed to enter Senegal
- Schools and universities have been closed since Monday 16 March for 3 weeks.
- Suspension of Muslim and Christian pilgrimage procedures & Suspension of mass prayers (Friday prayer and Sunday church)
- Invites religious authorities to support the State in the measures adopted
- Encourages Senegalese diaspora to respect the instructions issued in their countries of residence.

- **What responses has the government put into place to address the health crisis and/or the economic impact?**

1. Advocacy visits to religious leaders in Touba (religious community) Home visits (VAD) in Touba and Mbacké

2. Deployment of a team of socio-anthropologists and communication actors in support to Diourbel region.
3. Orientation of community actors in Touba on VIDOC-19 Participation in prime-time broadcasts and awareness-raising on VIDOC-19 Broadcasting of spots on TV and radio (including community radio) Production and dissemination of materials in local languages and in "Wolofal" (Wolof written with Arabic characters)
4. Availability of support communication materials in regions and hospitals Media monitoring
5. Distribution of daily press releases via public and commercial television channels

On Monday March 24 2020, President Macky Sall declared a state of emergency throughout the national territory followed by a **curfew from 8 p.m. to 6 a.m.**

- The Defense and Security Forces to stand ready for the immediate and strict execution of the measures enacted over the national territory according to these points:
- To regulate or prohibit the movement of persons, vehicles or goods in certain places and at certain times.
- To prohibit, generally or, all processions, parades, rallies and demonstrations on the public highway.
- To order the temporary closure of public places and places of meetings.
- To prohibit public or private gatherings/meetings of any kind whatsoever which are likely to cause or maintain disorder.

The state of emergency is still maintained, and the curfew will continue until 4 May.
In addition, the Government of Senegal has noted the development of community contamination of COVID-19, following daily communications by the Minister of Health and Social Action. As a result, the Minister of the Interior decided to suspend, until further notice, the approval of special authorizations to circulate throughout the national territory, with the exception of those for reasons of illness, for transporting corpses and for professional reasons, in order to reduce the rate of progression of the disease. In Dakar the closure of non-essential shops and petty mobile traders is the responsibility of the Prefects of the Departments, in conjunction with the Mayors and other actors involved. Reinforcement of the presence of the security and defense forces (Police, Gendarmerie and Army) in public places, particularly on beaches and recreation areas, with a view to rigorous enforcement of measures prohibiting gatherings is in effect. Reinforcement of the monitoring of public transport vehicles, with a view to ensuring compliance with the respect of the preventive measures against the spread of COVID10, enacted by the Minister in charge of land transport is also in effect. The President has released a communication alluding to possibility for complete lockdown if the population does not respect the measures in place.

- **<u>What travel restrictions has the government put in place for travelers entering the country?</u>**
    1. The total closure of Senegal's air and land borders is now in effect. The Government of Senegal through the Minister of Tourism and Air Transport has decided to suspend "the operation of all flights to and from Senegal's airports, with the exception of domestic flights between Aibd and Ziguinchor, cargo flights, medical evacuations and authorized special flights". The measure took effect on Friday March 20th at 11:59 p.m. for one month.

2. Inter-regional movements have been stopped unless authorized by the administrative authority. Regarding transport, capacity of buses and taxis is now reduced to half of original capacity and is heavily monitored. The transport of persons by motorcycles is prohibited by the administrative authorities at the local level.

Part 2: The Situation in Areas Where ChildFund Works

Partner Organization (Use Salesforce identifying code/name.)	# of Enrolled and Sponsored Children		COVID19 Cases Reported in ChildFund Communities (Y/N/Unknown) Provide number if available. 					on IO templates, an electronic WL will be sent to new sponsors.	

Note: As a global measure, all sponsor visits have been suspended.

- What issues are children in these areas facing (food shortages, safety concerns, schools' closure, etc.)?
- Child protection risks caused or exacerbated by crisis. Much more exposure to risks and abuse.
    - The closure of schools: children have been out of school for dozens of days by decision of the Government. The measure is valid for 3 weeks, after which it could be extended if the situation does not improve.
    - Exposure to increased risks of infection for children living in communities where cases are confirmed.
    - A food shortage for children living in families impacted by the restriction measures taken in the fight against COVID-19.
- Idleness in cases of total containment
- Difficulties for parents to keep children inside the homes, lack of toys/appropriate activities to occupy them at home.
- School closures prolonged to May 4th, 2020 and then reviewed; for children especially in the public-school system, a lack of continued instruction i.e. online, and no other activities at the homes to engage them. This is leading to increased difficulties in keeping an eye on children, frustrations at household levels.

Part 3: ChildFund's Response

Who is or will be leading/managing the response?

ChildFund's response is led by the Country Director, with support from the ChildFund Senegal COVID19 Taskforce put in place.
Country Director – Yaikah Joof

Planned, desired or ongoing response – inside or outside current operational areas.

Who are we partnering or collaborating with to provide our response?

At the central level, we are working in collaboration with:

- Ministry of Health and Social Action: **The Ministry of Health and Social Action is currently working with ChildFund Senegal to develop training tools for relays, and IEC materials.**

- All the 14 regional framework teams were oriented last week on the community engagement document developed by the MSAS, and a set of documents is being put in place for each team with a view to scaling up at the health district level.
- Ministry for Women, Families, Gender and Child Protection, specifically the Department of Child Protection and Rights,
- Ministry of National Education.
- Member, National Group for Child Protection, as well as the Humanitarian Organizations Group for Child Protection.
- As a member of the Joining Forces Initiative (JFI)/Child Rights Now (CRN), we are working with our peer INGOs to develop messaging and a common front/approach to the COVID19 response in Senegal. We have received information from the NGO Terre des Hommes that the European Commission has decided to make 10M available to the Joining Forces coalition as part of the response to the Covid-19 crisis. This was touched on at a high level meeting in Geneva in February. A priori, a group of only 3 countries will be selected and for the moment Senegal is one of the three. Confirmation will come next week.

At the local level, our local partners are now implementing their respective COVID19 responses, following validation and approval of their response plans, and doing so with the decentralized health district team. Note that all remaining subsidy have now been reallocated to this response. There is a particular emphasis of monitoring of children and families in our Sponsorship system, as well as sensitization messages, and support to most vulnerable families with food items (rice, sugar, oil).

What kind of response activities or interventions are being provided?

The guidance given to the LPs is primarily aimed at maintaining contact with the children enrolled in the sponsorship system and their families. Secondly, to support the response plans implemented through the response management committees. #

LP	Type of activities				
	Purchase of hygiene kits	**Support with basic foods**	**IEC Support**	**Home visits/Welcome centers,**	**Staff & relays training**
Kajoor Janken	1000 targeted families	291 targeted families	8750 targeted households with flyers/leaflets	20 targeted daara	100 targeted
Fel Yook	3000 targeted households planned	200 targeted households	3 targeted community radios 16 radio broadcasts	3000 home visits planned	119 targeted
Pencum Ndakaru	3000 targeted families	300 targeted families	6 targeted associations	36 daara targeted in 4 associations	

Baol	3,279 targeted families	20 targeted families	100 t-shirst to be made	6,558 Expected home visits 20 targeted daaras	170 targeted
Dimbaya	1, 332 targeted families	820 targeted families	1000 flyers	40 targeted daara	64 targeted
FODDE					
• **Pata**	820 hygiene kits 780 households targeted for VADs	780 food kits	5 radio programmes planned 30 commercials planned	1 targeted daara	
• **Kerewane**	1000 hygiene kits	920 food kits	5 radio broadcasts planned 30 advertising spots planned	920 households targeted for VADs 5 targeted daaras	

The actions focus on:

- Training of staff and relays on community intervention techniques in relation to COVID-19; At this stage of the intervention, the training of staffs and relays involved 8 people in Dakar, 5 in Baol, 15 in Mbour and 54 in Ziguinchor. That is a total of 82 people for the moment. For Kajoor Jankeen, 16 staffs and relays have been trained at this stage
- Sensitization activities around informing children and their families about the disease and preventive measures. At this level 2 radio broadcasts and 2 spots were broadcast in Ziguinchor and 1000 flyers distributed in this department. In Diourbel, the home visits reached 3279 families out of the 3279 families planned, i.e. a 100% completion rate. Kajoor Jankeen, the LP in Thies, reached 24,299 people through their sensitization campaign. At the level of the daara of Thies, 980 key persons (ndeyi daara, koranic teachers) have been sensitized to date. Through contracts with community radios, 38 radio programs have been broadcast as part of the awareness campaigns around COVID19. 12,500 flyers have been distributed.
- Monitoring the implementation of preventive measures
- Supporting most vulnerable families with food and hygiene materials. The commune of Pata, has contributed, from its own budget, an amount of 1,000,000cfa (to support all families in the commune with hygiene kits but also decentralised services such as the police, customs, gendarmerie and the health post.
- Cash transfers through e-vouchers or mobile cash transfers on a case per case basis, to families most in need (criteria in place)
- Providing material support to the regional and departmental response management committees. With the particular focus on daaras (koranic schools), we will be supporting the COVID19 response plans of the Directorate for Child Rights and Child Protection for

the daaras in Dakar and Diourbel. Diourbel has supported 25 daara in food items, out of 20 planned, i.e. a realization rate of 125%. 1 departmental plan and 6 communal plans supported in Ziguinchor i.e. 100% of the activities in this area.

- Our LP in Thies, Kajoor Jankeen, provided 12,150 households with hygiene kits, while 1,540 beneficiaries in 30 daaras (10 in Tivaoune; 20 in Thies). One of the ten daaras in Tivaoune is the daara in Mekhe (daara funded by ChildFund Korea grant) received hygiene kits. 3,250 households also received support with basic food items.

Selection criteria to identify most vulnerable families for support:

- Have at least one child enrolled
- Be economically impacted by the COVID19 pandemic:
- head of household in small business with very limited daily income.
- head of household working as a driver of persons or transport of merchandise; public transport conductors;
- Be engaged in very small business.

What support items are needed or have been collected/distributed?

The following will be distributed to families: hygiene kits, food, leaflets and flyers on the disease.

See table above (page 10)

How is ChildFund linked with humanitarian coordination structures, i.e., in which clusters or working groups do we participate?

We continue to work within the National Child Protection Group, as well as the Joining Forces Initiative (JFI) clusters. A consolidated response plan was put together over the course of the last week, where the actions of each member were identified and put in the plan. This plan was submitted to the Ministry for Women, Families, Gender and Child Protection. Through its local partners, ChildFund will contribute 122,665,241 CFA francs ($203,017.56) to the COVID19 response.

Still with the National Child Protection Group, ChildFund will support the Ministry of Families, Women, Gender and Child Protection on its plan to return talibe children to their families. This is currently being carried out with 145 koranic schools (daaras) in the area of Guediawaye, a suburb of Dakar, where our LP in Dakar intervenes. Our LP has been active in the mapping of the daaras and working with the local government and Prefet's office on the plan.

Date	Meeting	Organized by:	Discussion points / Decisions
March 17	Sharing of the response plan of the Directorate of Child Protection at the level of daaras against COVI-19 in the regions of Dakar and Diourbel.	MFFGPE	Presentation of the response plan and budget. Call for contributions from partners. Worries of the partners on: the continuation of the project of withdrawal of street children; risk of perception of encouragement of the Serignes Daara through the contribution; absence of psychosocial support to children who would be subjected to isolation or total confinement; lack of coordination between the General

Date	Meeting	Organized by:	Discussion points / Decisions
			Directorate of Health and the Directorate of Child Protection. Assurance from the MFFGPE on: the imminence of the implementation of the Plan for the withdrawal of street children; the integration of the MFFGPE into the National Epidemic Management Committee. Next step: integration of observations and finalization of the plan; sharing of the finalized plan on Friday 20 March.
March 20	Analysis of the MFFGPE's response plan at the Daara level	National Child Protection Group (GNPE)	Minutes of the meeting with the MFFGPE on the response plan for daaras in Dakar and Diourbel. Minutes of the meeting of civil society actors to take into account child protection in response plans against COVID-19. Need to bring the Directorate for Child Protection and the Directorate-General for Social Action closer together to harmonize their plans.
March 20	Sharing of the plan to combat COVID-19 and advocacy.	Directorate General of Health / Ministry of Health and Social Action	Presentation of activities carried out or planned by stakeholders in the fight against COVID19 Sharing of actions already carried out by the structures present Request for technical and financial support to partners
March 20	Sharing of the final version of the response plan at the daaras' level	MFFGPE	Call for partners to communicate their contribution
March 24-26	Preparation of the COVID19 response Trainers' handbook and job aids for CHW	MoH	The 2 drafts are available and must be finalized with the help of a graphic designer. The 2 drafts will be reproduced and made available for to the regional teams for a harmonized orientation and intervention of the community actors in the response.
26 March	Meeting of the Surveillance and Alert committee, set up by the Division for Child protection and Child Rights (made up of CSOs, key	MFFGPE	Unicef represents the GNPE within this committee

Date	Meeting	Organized by:	Discussion points / Decisions
	Ministries and Tech advisors)		
27 March	Debriefing within the GNPE of the first meeting of the Alert and Surveillance coordination unit set up by the MFFGPE	Unicef	Minutes by Unicef of the meeting of the MFFGPE Surveillance/Alert Unit: - Presentation of the Alert and Watch Coordination Unit, and the commissions set up (logistics, management and resource mobilization). - Presentation of the provisional budget of Fcfa 850,625,000 of which Fcfa 40,000 000 is already available. - Involvement of the CDPE to reach the community level.
02 April	GNPE Meeting	Unicef	The meeting focused on three main points: updating the mapping of response actions; updating the process of developing the protocol for the care of child victims of the disease; and coordination to respond to the various requests from the Ministries. 1. <u>Updating the mapping</u> A mapping tool on the actions planned or carried out will be filled in by the different organizations to identify gaps in terms of intervention and to pool efforts in common areas. 2. <u>Elaboration of a Protocol for the care of child victims of the disease</u> In order to harmonize interventions for cases of children affected by the disease, the GNPE will work on a simple protocol on which all those involved in the emergency care of children should base their interventions. 3. <u>Requests from Government Ministries</u> For a better positioning in front of the ministry for their support, coordination will be made to share on the requests of the different ministries in order to avoid duplication and strengthen the pooling of resources. The problem of interministerial coordination is highlighted as a challenge to be taken into account.
07 April	Meeting with Ministry for Economy, Planning and Finance	UNICEF, on behalf of the JFI/CRN Coalition	Recognition of the JFI/CRN Coalition's efforts in the COVID19 Response in Senegal; discussions on inclusion in the Monitoring committee (representation from JFI/CRN will be determined); appreciation of our role in

Date	Meeting	Organized by:	Discussion points / Decisions
			removal of talibes and ensuring their protection and that their needs addressed

Next steps:

- Coordinate the action of local partners against COVID-19 in relation to ChildFund's orientations
- Maintain the application of preventive measures
- response plans all validated and approved and follow up is ongoing
- continue to participate in the coordination bodies of the response
- report on the actions carried out
- inform about enlisted children and their families.
- Inform on any changes in response plans

For sitreps submitted after ChildFund response has been initiated, what is the current progress of implementation vs. the established response plan?

Below Sections for Internal Use Only

Part 4: Office and Staff Status

Office Status (Open/Closed)	Number of Staff:				
	Diagnosed with COVID19	Diseased from COVID19	Working from Office	Working from Home	On Special Leave
Open	0	0	Only essential personnel	telework now in place	04

Notes:

- Any cases of staff diseased need to be reported immediately to RD and GHR.
- Special leave as per COVID19 Administrative Guidelines.

Number of staff/partner organization staff completed WHO COVID online training https://www.who.int/emergencies/diseases/novel-coronavirus-2019/training/online-training.

We are about 15 people who have completed the WHO online training based on the feedback we received. **But here one must note the difficulties in accessing the course online, with almost all of the country now on telework. This has been particularly tough for those staff in the field. Access has proven difficult**

Part 5 Human Resources

- **Which visitors are there in the country? Please include names, functions, contact information and arrival/departure dates for both IO and RO staff (note: due to the travel ban, this will apply only once the ban has been lifted)**
  No visitors in country currently

- **Any gaps in staffing/need for deployment from other COs or Global Teams?**
  NO

- **Are there any other major HR issues?**
  NO

Part 6 Safety & Security

- **Are police and other services functioning in the normal manner?**
  The government has strengthened the police presence in order to monitor and enforce movement restrictions on possible confinement.

- **Are the courts still operating?**
  The court provides a minimum service in order to avoid the assembly of people.

- **Are there reports of looting or increased criminality?**
  So far, no scenes of violence or looting have been noted.

- **Have military personal being deployed to patrol towns or cities?**
  Yes, since the emergency state was declared by the Government.

- **Confirm the safety of staff and their families in the affected area.**
  Currently, staff and their families are safe, and no staff and families are near these affected areas.
- **Have Safety and security risks/mitigation plans been updated to current environment?**
  We have already the Security Management Plan & SOP's regarding country environment contingency plan
  Taskforce team in place
  Sharing Information, alerts and sensitization materials

- **Recommendations around any upcoming travel planned for staff or donors (note: Only once global travel ban has been lifted)**
  We are closely monitoring the situation to make recommendations in close cooperation with the Government and the health authorities in order to take the right decision.

Part 7 Grants

List all active grants:

Grant Job Code	Grant Name	Donor	Status of Implementation (Normal/Reduced/Suspended)	Any specific guidance received from donor? (Yes/No)
98-010D	ISD	Intra Health	ChildFund Senegal community health component starting to be affected in the field(specifically regions of Diourbel, Saint Louis and	Maintain planned activities

			Tamboucounda); we work directly with the District health teams and they are now more focused on monitoring of persons on quarantine, contact tracing, and sensitization (the latter activity being one where ChildFund is heavily solicited). Training of Senior Health Management Teams at District and Regional levels on community health management heavily delayed as they are all implicated in the COVID19 response; National level technical support field visits also on hold	
99-0234D	SUKABE	Grand Defis Canada	Completed	
25-041D	P&G 2018	Procter &Gamble	Reduction of interpersonal communication activities (IPC) to avoid groupings of people which is a transmission risk. These activities include talks, social mobilizations, home visits to households. Since March, schools have been closed until further notice and all project activities at school level have been now suspended.	Continuation of planned activities except at the school level
2-0346D	PRN KOLDA 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0347D	PRN ZIGUINCHOR 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0348D	PRN FOUNDIOUGNE 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping

2-0349D	PRN PASSY 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0350D	PRN MBOUR 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0351D	PRN JOAL 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0352D	PRN POPENGUINE 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping
2-0353D	PRN THIADIAYE 2019	World Bank / Senegal Government	reduced	Stopping activities that require population regrouping

Provide any additional narrative on how the COVID19 crisis affects implementation of your major grants.

Part 8 Funding

Provide information about potential sources of funding, including grant donors, subsidy, Emergency Action Fund, Alliance members, GIK, etc., for these emergency response efforts using the chart below:

- USAID has requested potential COVID19 response activities at community level and associated budget. This has been submitted to the IntraHealth COP

Availability of funding for the training of Community Health Actors (ACS) on COVID-19 response activities (community engagement and communication): cost 57,275,000 CFA francs or US $ 96,260.50 (Budget sent to IntraHealth on March 25, 2020).

- Budget
  - Outline how we will use this funding with a rough topline budget.

Part 9 Media/Communications

- **List of media who will be or have been contacted with press releases.**
  This is being done jointly with the JFI/CRN group of INGOs. We are currently finalizing the Concept note and will share
  A joint press conference is planned, with our Local partners to communicate on our response and enhance visibility of ChildFund Senegal's contribution to the COVID19 response –The tentative date is April 20, 2020. It will also be an opportunity to celebrate Talibé Day in connection with ChildFund's support for these schools.
  List of emergency CO spokespeople, including name, location, contact information, and languages spoken.
  - **C**ountry Director - Yaikah Joof
  - Communication Specialist – Adeline Lishou
- **Plans for collecting photos/videos/stories, e.g., should an outside photographer be hired?**
  LPs have been alerted to collect photos, videos, stories whenever possible and we have been receiving and sharing with Maureen Siele and Kim Repp. We shared pictures and

videos with Rachel Ringgold & Maureen (instead of Kim). Photos / videos on activities undertaken by Lps around this pandemic which are regularly shared on social media.

- **Key points for messaging and visibility, particularly any host-government sensibilities that must be considered.**
  - Currently a sensitive topic is around removal of the talibes (child beggars) from the streets. INGOs, UNICEF are pushing the Ministry of Women, Families, Gender and Child Protection to use this as an opportunity to effect the law. The discussions are around the "how" of such an exercise:
    (i) where will these children be housed until such a time that their families are identified? Given the current context, repatriating these children to their families is not possible. (ii) So do we leave them confined in these informal daaras that are going to be closed down or put them up in welcome centers?

  A key challenge here is that there are not enough welcome centers to house all of these talibes. So we are presenting a unified voice of support (i.e. JFI/CRN, UNICEF), but are also mindful of the sensitivities around this issue.

- Support needed or requested from IO, GSS or Global Teams – whether onsite or remote.
  - Support from EMU Director, other Cos, on cash transfers as needed
  - IO to expedite transfer of funds so as to start implementation of response activities amongs LPs
