Part 2: The Situation in Areas Where ChildFund Works

Partner Organization (Use Salesforce identifying code/name.)	# of Enrolled and Sponsored Children		COVID19 Cases Reported in ChildFund Communities (Y/N/Unknown) Provide number if available.	Number of Enrolled Children Reported with COVID19 (If available.)	Number of enrolled children diseased as result of COVID19 /Tropical Storm ETA
	Sponsored	Enrolled			
1510001/AD AL-Lepaterique Area Development Association	5210	7031	y	6	0

1510003/CA SM- Menonita Social Action Commission	3749	4907	y	0	0
1510005/AD ASBA Santa Barbara Area Developmen t Association	5512	6889	y	3	1

Our Local partner ADASBA reports a new child who tested positive for Covid-19. She and several members of her family are positive. The child’s father and grandmother are currently hospitalized, nevertheless she is in stable condition at home. The Local Partner will bring close monitoring to their condition and needs.

The first two children who tested positive for Covid 19 in ADASBA have fully recovered. New test results from October 2 were negative. Family was supported with additional food and hygiene supplies during their crisis. No new cases have been reported from any of our Local Partners.

Child deaths: List any sponsored child (with Partner organization and child ID from salesforce) diseased as a result of COVID19. (Note: These need to be reported immediately following the regular sponsorship protocols.)

Partner Organization (Use Salesforce identifying code/name.)	What is the status of the program/sponsorship processes (operational/suspended)?					
	Program Implementation	CVS	M&E Level 2	Enrollment /Disaffiliation	Sponsorship Communication	DFC
1510001/AD AL- Lepaterique Area Developmen t Association	Partially Operational	Suspended	Suspended	Partially Operational	Partially Operational	Operational
1510003/CA SM- Menonita Social Action Commission	Partially Operational	Suspended	Suspended	Partially Operational	Partially Operational	Operational
1510005/AD ASBA Santa Barbara Area Developmen t Association	Partially Operational	Suspended	Suspended	Partially Operational	Partially Operational	Operational
etc.						

Note: As a global measure, all sponsor visits have been suspended.

Tropical storm ETA severely hit the country the first week of November leaving a lot of devastation mainly on the northern and western part of the country. Several communities where ChildFund works were affected with flooding and landslides. Access to communities were blocked due to the destruction of bridges, main and secondary roads and landslides. Several of our enrolled children and families have been affected to the point that we have already reported death of one of our sponsored children.

We expect to experience more delays on processing child correspondence. And our Local Partners ADASBA and CASM have started identifying the situation of our enrolled population.

Since access to children and families is still limited due to the lockdown, child correspondence is mainly processed through the use of technology. DFCs have been delivered through Cash Transfer mechanisms, and Local Partners are now managing to send spontaneous letters from children to update the sponsors of their context and current situation.

What issues are children in these areas facing (food shortages, safety concerns, school closures, etc.)?

As mentioned above, due to government lockdown, schools are closed, and children are staying at home where they are doing some schoolwork.

- Child protection risks caused or exacerbated by a crisis.

The situation of confinement and overcrowding that the majority of the families live in could increase the risk of physical, psychological and sexual violence; especially on girls and women living in poverty, discrimination and exclusion.

Part 3: ChildFund's Response

3.a. Overall

- **Who is or will be leading/managing the response?**

Country Team:

- Rodrigo Bustos, Country Director, Team leader
- Daysi Kocchiu, Partnership Portfolio Manager, Partner Coordination
- Ana Handrez, Sponsorship Engagement and Retention Manager
- Patricia Betancourt, Protection Specialist, Protection Focus
- Zorayda Zelaya, Advocacy and Communication Specialist, Gender and Communication
- Kelvin Fúnez, Program Officer, Emergency Focal Point, Monitoring
- Allison Iraheta, Business Development Specialist

Planned, desired or ongoing response -inside or outside current operational areas

- Permanent meetings with the Humanitarian Network for analysis of the viability of the cash transfer mechanism as a strategy for food security and its implementation in our work area; permanent updating of the OCHA 3W page.
- Approach at the local level, through the three implementing partners (ADAL, ADASBA, and CASM)
 - Permanent meetings with local governments and intersectoral tables for local situation analysis, identification of response capacity by the health sector and coordination of preparedness actions.

- Monitoring of the situation of children through the communication networks organized by the local partners.
- Programmatic response based on the ChildFund Minimum Standards and Life Stage and Child Protection Technical Guidance.
- *Support in food security (non-perishable basic food) and WASH (hygiene kit)* to targeted families, through a mechanism, to be defined based on criteria of access and availability of financial channels and product suppliers (Cash transfer or voucher).
- Communication to families with key messages on measures to avoid infection, respect for stay at home measures, protection of children especially girls in the family in this situation of crisis and isolation.
- Country Office COVID 19 Emergency Response Plan prepared and sent to Regional Director. This was prepared in coordinated action with the Guatemala Country Office. It addresses two results of the Results Framework proposed by the Regional Office of the Americas. The first result was oriented towards subsistence support for targeted families, for which the selection criteria have been defined, the subsidy budget reoriented for it, and the mechanisms for accountability by local partners.
- The Honduras Country Office and our Local Partners have updated the Response Pandemic COVID 19 Plan, First Quarter FY21 (July – September 2020), Result 1. We have projected the support to 5,687 additional families. We aim to achieve a coverage of 100% of families with enrolled children with at least one CVA from April to September 2020.

How is ChildFund linked with humanitarian coordination structures, i.e., in which clusters or working groups do we participate? The most recent/next meeting and who is representing ChildFund? Donor meetings we have attended, or missions that we are aware of related to the response?

- Participation in meetings of the Humanitarian Network coordinating actions with other members, and with the central government in terms of piloting direct support to families in communities with a high incidence of COVID 19. OCHA 3W COVID 19 page update.
- Consultations with organizations in the Humanitarian Network that manage Cash Transfers, to learn about methodologies, delivery mechanisms, tools for analysis, among other points.
- Advocacy and Communication Specialist and Protection Specialist will be representing ChildFund in the sub-clusters of Child Protection, of the United Nations System in Honduras, with the objective of coordinating interventions to respond in an organized manner to the protection needs of children.
- Participation in meetings to elaborate the action plan of the sub-clusters of Child Protection, of the United Nations System in Honduras. ChildFund's activities were included in the protection mapping of the sub-cluster. ChildFund is contributing with in the development of the sub-cluster advocacy plan.

Ongoing interventions:

- Communication of key messages through social and community networks to families and communities. This week has emphasized the issues of protection and care of children in the family, self-identification of COVID 19 symptoms, reference route in case of suspected infection.
- Through the Decentralized Health Project in the coverage area of the ADAL Partner:

- Distribution of 2,000 hygiene kits for the most vulnerable population (pregnant women, people with chronic diseases, NACE children, among others).
 - Distribution of P&G sachets to 7,000 families for water purification.
- Consultation with local partners on the criteria to be considered for decision-making (local supply of products, restrictions on the mobilization of the population, time for implementation, risks/security, financial services available, dynamization of the local economy).
 - Accompanying local partners in preparing the programmatic response based on ChildFund Minimum Standards and Life Stage and Child Protection Technical Guidance for April, May and June 2020. A technical matrix has been developed and provided to local partners to guide the programming of sessions by Programmatic Model (Format 1).
 - Development and delivery of guidelines for updating the three local partners' COVID 19 Emergency Response Plan which includes a format for programming, budgeting and monitoring of activities, and identification of funds to be allocated to support food security and WASH (Format 2).
 - Through our CASM local partner, Honduras CO started the execution of the subsistence support component of our Response Plan by delivering vouchers to 34 families and species to 458 families, a total of 492 families with enrolled children from the municipalities of Atima, Trinidad and San José de Colinas, Santa Barbara Department. The support to the 458 families was complemented by a delivery in species of similar value made by the "Honduras Solidaria" Government Program, thus achieving support for the 1,894 family members with a comprehensive kit made up of basic food and hygiene products that complement their diet for approximately 1 month. The delivery of subsistence support was complemented by oral and written information (brochure) that was provided to each participating family on biosafety protection measures to prevent the spread of COVID 19 in their homes.
 - Participated in the "Workshop on assistance in communities, work with population / communities at risk of violence and security of the humanitarian worker".

With this workshop, which seeks to support the different sectoral working groups that are activated, it is intended to provide support through technical advice through the experience of the members of the Humanitarian Country Team. For this, the following topics were developed:

- Humanitarian Assistance in communities
- Work with population / communities at risk from violence
- Humanitarian worker safety

The workshop shared tools, good practices and lessons learned on these topics and how to help protect the transverse sea in different lines of work. At the end of the workshop, a space was created for case studies where the participants shared challenges that we did not face and how the Protection Group guides us.

Through our three local partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering cash transfer, in kind integral support and in kind hygiene kit to a total of 3,865 families (18,851 persons) with enrolled children from Santa Barbara and Francisco Morazán Departments:

- Cash transfer and in kind hygiene kits to 528 families (2812 persons), total US\$21,209.15 / \$36.58 CT each family and \$3.585 each in kind hygiene kit.
- In kind integral support (subsistence and hygiene kit) to 918 families (4154 persons); total \$35,932.95 / \$39.14 each family).

- In kind integral support 50% (subsistence and hygiene kit) to 364 families from Atima, Santa Bárbara (1,587 persons); \$7,098.21 / \$19.50 each family). This support was complemented by a delivery in species of similar value made by the “Honduras Solidaria” Government Program.
- In kind hygiene kits to 2,055 families (10,298 persons); total US\$ 7,367.17 / \$3.585 each family.

The delivery of subsistence and hygiene support was complemented by a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children’s health, and to take other measures at home for the security of children inside their home during quarantine.

Through our Acción Honduras local partner, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering cash transfer and in kind hygiene kit to a total of 849 families (4,179 persons) with enrolled children from Francisco Morazán Department:

- Cash transfer and in kind hygiene kits to 2 families (10 persons), total US\$ 80.39 / \$36.59 CT each family and \$3.61 each in kind hygiene kit.
- In kind hygiene kits to 847 families (4,166 persons); total US\$ 3,059.72 / \$3.61 each family.

The delivery of subsistence and hygiene support was complemented by a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children’s health, and to take other measures at home for the security of children inside their home during quarantine.

Through our Acción Honduras Local Partner, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering Voucher and in kind hygiene kit to a total of 410 families (2,140 persons) with enrolled children from Francisco Morazán Department.

The delivery of subsistence and hygiene support was complemented by a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children’s health, and to take other measures at home for the security of children inside their home during quarantine.

Through our ADASBA and Acción Honduras Local Partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering cash transfer, voucher and in kind hygiene kit to a total of 1,160 families (5,622 persons) with enrolled children from Santa Bárbara and Francisco Morazán Departments.

The delivery of subsistence and hygiene support was complemented by a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children’s health, and to take other measures at home for the security of children inside their home during quarantine.

- Through our ADASBA and CASM Honduras Local Partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering voucher, in kind integral support and in kind hygiene kit to a total of 417 families (1,934 persons) with enrolled children from Santa Bárbara Department.

The delivery of subsistence and hygiene support was complemented by a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children's health, and to take other measures at home for the security of children inside their home during quarantine.

- Preparation of AOP FY21 Local Partners guidelines with emphasis of Quarter One (Continuous Emergency Response Plan Pandemic COVID 19).

Project "Safe Water for Children in Honduras", through the Decentralized Health Project will distribute P&G sachets for water purification to 7,000 families of Curarén, Alubarén and Reitoca municipalities; and La Libertad and San Miguelito Municipalities coordinating efforts with ADRA organization. In alliance with Oxfam, also will distribute P&G sachets to 1,240 families of 6 municipalities in Lempira Department, and 2 municipalities in Valle Department.

In kind executed (June 1 – June 7, 2020). Through our ADASBA Honduras Local Partner, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering in kind integral support to a total of **219 families (1,044 persons)** with enrolled children from Santa Bárbara Department.

Voucher and in kind executed (June 8 – June 14, 2020). Through Acción Honduras, CASM and ADASBA Honduras Local Partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering voucher and in kind integral support to a total of **2,869 families (11,089 persons)** with enrolled children from Francisco Morazán and Santa Bárbara Departments.

Cash transfer and in kind executed (June 15 – June 2, 2020). Through Acción Honduras, CASM and ADASBA Honduras Local Partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering cash transfer and in kind integral support to a total of **1,900 families (8,720 persons)** with enrolled children from Francisco Morazán and Santa Bárbara Departments.

Food baskets and hygiene kits supports (June 22 – June 28, 2020). Through CASM and ADASBA Honduras Local Partners, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering Food basket and Hygiene kit (integral support) and only Hygiene kit to a total of **683 families (2,812 persons)** with enrolled children from Santa Bárbara Department. ***It is important to clarify that the 75 families that this week are being supported with hygiene kits have already received support with the Food Basket in April 2020.***

Due to the advance of the COVID 19 infection in Lepaterique Municipality (Francisco Morazán Department), Acción Honduras Local Partner and CF decided to reschedule the cash transfer delivery (624 families of Lepaterique), so as not to expose them to the risk of infection.

Voucher support executed (June 29 – July 05, 2020). Through Local Partner Acción Honduras, Honduras CO continue the execution of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering Vouchers to a total of **59 families (610 persons)** with enrolled children from Francisco Morazán Department.

Cash transfer, Voucher and Food baskets support executed (July 06 – July 31, 2020). Through Local Partners Acción Honduras, ADASBA and CASM, Honduras CO continue the execution

of the subsistence and hygiene support component (Result 1) of our Response Plan by delivering Cash transfers to a total of 624 families (3,222 persons), Vouchers to 802 families (3,686 persons) and food baskets to 1,351 families (6,096 persons) with enrolled children from Francisco Morazán and Santa Bárbara Departments (Total: 2,777 families, 13,004 persons, \$ 76,652.84).

Cash transfer, Voucher and Food Baskets support executed (August 1 – 31, 2020). Through Local Partners, CO continue the execution of the subsistence and hygiene support component (Result 2) of our Response Plan by delivering Cash transfers and voucher to 472 families (2,430 persons) and food baskets to 1,717 families (7,986 persons) with enrolled children from Francisco Morazán and Santa Bárbara Departments (Total: 2,189 families, 10,416 persons, \$ 66,584.49).

3.b. Program Response

Please organize your program response report as per the 4 objectives included in our global response plan. You can add an additional category if you have response activities planned or executed that do not align with these objectives. For each objective use the questions below to guide your report.

- **What kind of response activities or interventions have been executed? What support items are needed or have been collected/distributed?**
- **What is the current progress of implementation vs. the established response plan?**
- **Who are we partnering or collaborating with to provide our response?**
- **What kind of response activities are you still planning for the coming period?**

Key messages disseminated by local partners to communities and families in our coverage area on COVID 19 based on existing content and material on the websites of reference organizations such as WHO, UNICEF, Ministry of Health of Honduras, ChildFund, using social networks (Facebook, WhatsApp) and mobile phones.

Translation and socialization of ChildFund International's programmatic guidelines (Minimum Standards and Technical Guide) with local partners, development of a complementary tool for programmatic adaptation of the quarter.

Preparation of guidelines and instruments for updating the Emergency Response Plan of local partners and its socialization with three partners.

In order to identify alternative ways for Program Models Delivery (including communication plan messages), with an emphasis on non-face-to-face ways, the country team in joint action with local partners has started a media mapping throughout the ChildFund coverage area with both sponsorship and grant funds. The mapping consider: access to media such as local and / or regional Cable TV, national, regional and community radio, internet connectivity, cellular signal connectivity, national newspaper at the community level; as well as the electrical energy production systems and access to devices by families, youth and communities such as computers, radio, TV, analog phones, smart phones.

We have developed a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children's health, and to take other measures at home for the security of children inside their home during quarantine. This booklet was printed and is being delivered in the most remote communities. It will be used by parents, since in these moments of emergency it requires not to forget about CAY in all their pursuits and concerns. This material is easy to read, with illustrations, short phrases, adopted language to the region and with necessary information.

A radio campaign has been started on local radiophone media, with messages about the importance of taking care and assisting CYA during this situation of emergency, emphasizing on possible reactions that CYA could manifest during the Covid-19 emergency.

The 30 of April we sign the new grant entitled "Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood " with an amount of \$752,442, in which for the coming months we will support vulnerable families with children under 6 years old in the departments of Santa Bárbara, La Paz, Intibuca, Lempira, Ocotepeque, Copán. This response consist of delivering 1,500 usbs containing information in the necessary measures in how to prevent Covid-19.

The new booklet is ready to be delivered to the beneficiary population.

Local partners perform their radio programs with prevention and protection messages.

As part of the communication plan, local partners share the referral routes for cases.

The transmission of radio theaters with themes focused on the care of children during the crisis begins.

The production of new radio theaters begins with different themes such as the route of referral of cases, types of violence, signs in abused children, gender roles, care during the crisis caused by covid19.

A booklet with information on activities to do with children is already being distributed along with food delivery.

A media mapping has been carried out to determine the existence of internet, radio and television connectivity in the execution areas.

In association with local partners, we have developed infographics for child protection on psychological first aid for children and psychological health guides to cope with COVID-19.

Prevention, care and childcare messages are being transmitted on 6 different radios.

5 new radio theaters are ready to be published, which their topics are: protection, gender, referral routes, safety measures etc.

5 new radio theaters are published in 6 different radios, which their topics are: protection, gender, referral routes, safety measures, etc.

A media mapping is going to be carried out to determine the existence of internet, radio and television connectivity in every enrolled family in the execution areas. This information will be the basis for the initiatives of delivery to families by Sponsorship and Programs initiatives.

3.b.1. Stop COVID-19 from infecting children and families

ChildFund's Global Response Plan

To help children and families protect themselves from COVID-19, we are installing community, handwashing stands; educating communities about symptoms, hygiene measures and where to get tested or treatment; and distributing soap, hand sanitizer, gloves and masks to families and frontline, health workers. For children who are being treated for COVID-19 or are subject to quarantine measures, we are creating child-friendly spaces with age-appropriate toys and reading matter.

Through the Decentralized Health Project in the coverage area of the ADAL Partner, WASH support to 2,000 people (pregnant women, people with chronic diseases, NACE children, among others) and 7,000 families with water purification sachets.

On April 17th, we delivery more than 10 thousand hygiene kits , with a approximate cost of USD.32,038.5 dollars, to the Direction of Adolescence and Family (DINAF). These kits will be used by children, youth and teenagers who will return to the country after a deportation process, in total precariousness and many of them who were unaccompanied. Thanks to this important donation these children, youth and adolescents will now have the possibility to adopt the hygiene measures that allow avoiding the virus contagion. The hygiene kits will be distributing in the principal cities of the country, San Pedro Sula and Tegucigalpa, which are the most affected places by this illness and it is a determinant resource in this moment to preserve health to those who receive it as from the people around them.

Between April 20 and 21, teams from the National Risk Management System (SINAGER) from 4 municipalities of the Department of Santa Bárbara were supported by ChildFund to improve their biosecurity conditions. These teams coordinate with our local partners the Response to the Emergency in ChildFund intervention zone. ChildFund provided hygiene kits and biosafety equipment for the value of \$ 3,085.

The 30 of April we sign the new grant entitled "Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood ", with an amount of \$752,442, in which for the coming months we will support vulnerable families with children under 6 years old in the departments of Santa Bárbara, La Paz, Intibuca, Lempira, Ocotepeque, Copán affected by the emergency with a hygiene kit. We will deliver 7,000 hygiene kits for the prevention of COVID-19 and other diseases such as dengue fever and diarrhea.

In order to curb the spread of this virus and consider the rights and needs of the most vulnerable people, we presented a proposal to the Canadian Fund Local Initiative of Honduras, Costa Rica, Nicaragua "To strengthen prevention, detention and care measures for patients who are suspected and/or positive for Covid-19 in rural communities by providing basic medicines for patients with chronic diseases, personal protection equipment for health workers and to raise awareness in rural communities about how to prevent the spread and what to do in cases of being suspected of Covid-19" in the communities of Alubaren, Curaren, Reitoca, La Venta and Lepaterique in the department of Francisco Morazán.

September 10th , ChildFund Honduras signed an agreement with the Ministry of Health for the project "Health Immediate Public Health Response Program to Contain and Control Covid-19 and mitigate its effect on service delivery in Honduras (RISP-HO)". The project general objective is to contribute to the strengthening of the First Level of Care networks (Hospital Escuela Universitario, Health Region Metropolitan, and Health region for Francisco Morazan), facilitating timely attention to the population through support for strategic and operational epidemiological surveillance actions for preventing the spread of the disease, containing transmission, improving access and care of suspected and positive cases of COVID-19 in Honduras. The project aims the following expecting outcomes:

For the Health Region of Francisco Morazán:- Have a triage supervisor team, equip health facilities and triage centers with personal protection equipment antiseptic medication for oral use, Azithromycin, Ivermectin and Zinc. (MAIZ), 10,000 rapid tests for the detection of Covid-19 in suspect patients for the 103 health establishments and 27 triages.

For the Health Region of the Metropolitan - Form 6 new regional rapid response teams and strengthen 6 local rapid response teams with emergency support personnel. In order to support the 77 current Rapid Response Teams (13 regional ERRs to support the 64 local ERRs), where microbiologists and technicians from the different CIS will be concentrated to give a timely response made up of general practitioners, ASA.

For the Hospital Escuela Universitario (Public Hospital) :Improve the capacity of care for patients with chronic diseases, acute and Covid-19 that demand the service of the hospital (Currently there have been medical personnel who have been disabled due to the same disease of the Covid-19), equip the hospital with medication and PPE.

The 15 of October we signed an agreement for the IV phase for the project “Clean Water for Honduras” with emphasis in Covid-19 prevention, this phase will have components such as multiple aspects geared towards COVID-19 prevention (clean water, hand washing stations for schools and health clinics, biosecurity kits for volunteers, Covid-19 prevention campaign, additional sachets with other nonprofit organizations, etc.)

3.b.2. Ensure that children get food they need

ChildFund’s Global Response Plan

To ensure that the most vulnerable families can keep food on the table, pay rent and cover other basic needs, we are providing cash for those families most needing this support, such as those who have lost their income because of COVID-19, child or elder-headed households, and/or households affected by disability or chronic illness. Where possible, we are distributing food and basic household items directly, carefully abiding by COVID-19 protection measures

3.b.2. 1. Cash Transfers and vouchers

-Is your CO planning or implementing cash transfers or vouchers as part of COVID19 response?

Yes

The distribution plans of the subsistence support to the prioritized families are ready at the local level through our local partners, for their execution as of Wednesday April 22,2020. The support of more than 5,205 families with an average value of \$ 40.00 per family (Cash transfer, voucher and in kind) between the months of April to June 2020.

- If so, brief description of progress to date.

Selection of beneficiary families:

- Criteria for the selection of beneficiary families defined in discussion with local partners.
- Value of subsistence support per family defined in \$ 40 (L. 1,000) for two months. It is an estimated value by organizations of the Humanitarian Network and the Honduras Solidarity Program of the government of Honduras.

- Estimated budget to be reoriented to support for family subsistence, monthly projection of the execution defined with each local partner.
- Listings of families targeted according to criteria, estimating 5206 families, equivalent to 39.6% of the total families with enrolled children.

Commodity supplier market analysis

- Supplier market analysis carried out at the level by two of the local partners (Acción Honduras and ADASBA). In general, to date, there is a supply of basic products at the local level.

Mapping of financial mechanisms

- Mapping of cash delivery mechanisms carried out at the local level by two of the three local partners (ADASBA and Acción Honduras).
- We expect to initiate the cash transfer next week
- For the first support, cash transfer (Acción Honduras), Voucher and species (CASM and ADASBA) will be mechanism used.

The distribution plans of the subsistence support to the prioritized families are ready at the local level through our local partners, for their execution as of April 23, 2020. The support of more than 5,205 families (39.8% coverage enrolled families) with an average value of \$ 40.00 per family (Cash transfer, voucher and in kind) between the months of April to June 2020.

CAV executed (April 22 – 26, 2020). Through our CASM local partner, Honduras CO started (April 22 to 26) the execution of the subsistence support component of our Response Plan by delivering food baskets to a total of 492 families with enrolled children from the municipalities of Atima, Trinidad and San José de Colinas, Santa Barbara Department. The support to the 458 families was complemented by a delivery in species of similar value made by the “Honduras Solidaria” Government Program. In total, we support 1,894 family members with a comprehensive kit made up of basic food and hygiene products that complement their diet for approximately one month. The delivery of subsistence support was complemented by oral and written information (brochure) that was provided to each participating family on biosafety protection measures to prevent the spread of COVID 19 in their homes.

3.b.2.2. Bags of food for families

The 30 of April we sign the new grant entitled "Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood " with an amount of \$752,442, in which for the coming months we will support vulnerable families with children under 6 years old in the departments of Santa Bárbara, La Paz, Intibuca, Lempira, Ocotepeque, Copán affected by the emergency with a bag of food for children between the ages of 2-6 years. We will deliver 5,758 bags consisting of cereal and milk for children that have low weight and are in AIN-C Program.

On June 9 we sign a new workplan with UNICEF to the ongoing grant "Strengthening the methodology for the progressive eradication of physical punishment" (Job Code 3-0380D) which consisted of redirecting all remaining activities and the amount of \$91,678 to the COVID 19 Pandemia Emergency Response in which consists of 1,517 families with children under 6 years old of Santa Bárbara and Copán Departments supported in their access to subsistence products to ensure their nutrition.

This week we were able to deliver 360 Food Basket to families with children under 6 years old in the department of Santa Barbara to the project "Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood ".

3.b.3. Keep children safe from Violence: physically and emotionally

ChildFund's Global Response Plan

We are supporting community-based child protection systems that identify, respond to and refer cases of abuse, neglect, violence or exploitation. We are also providing virtual, online psychological first aid and counseling, and supporting temporary shelters for children who live on the street, providing hygiene supplies, food and other basics. We are also arranging safe and appropriate care for children who are separated from their caregivers due to treatment or prevention measures.

The development of the response of the emergency plan that is was made between Honduras and Guatemala was completed, this plan completes actions for the implementation of cash transfer and communication actions focusing messages to maintain measures to prevent contagion and protect violence against children, young people and adolescents. Enhancing messages that will instruct and guide mothers and caregivers in the important work of protecting CYA. Messages have also been defined with the context of communities in mind, the current situation of the crisis and specific products have been specialized for young people and adolescents with whom self-care must be worked on to reduce the risk of contagion.

The communication plan will be executed on social media, wsp, print media and radio. In ChildFund's action communities in Honduras, radio remains the most widely disseminated medium and accessed by our target population. Thanks to this plan, both the beneficiary families and the communities where we have actions will be reached.

In progress of this plan, a letter of message was already developed to mothers, fathers, caregivers because it is of great interest and fundamental that even in times of crisis and emergency continue to care for and protect CYA.

We have developed a booklet for mothers, fathers and caregivers, and inside its content it can be found very important messages to take care of children's health, and to take other measures at home for the security of children inside their home during quarantine. This booklet was printed and it's being delivered since april 27 in the most vulnerable alongside with subsistence support. It will be used by parents, since in these moments of emergency it requires not to forget about CAY in all their pursuits and concerns. This material is easy to read, with illustrations, short phrases, adapted language to the region and with necessary information.

We have provided guidance to the local partners to elaborate brochures that will help to educate on what violence is, types and signs of violence. These brochures are being delivered to the families in all the communities.

A roadmap for referral of cases of violation was prepared. This roadmap will be used by the community and the community protection mechanisms.

Members of the 17 Community mechanisms of protection, local partners, and the technical team have been involved in activities of distribution of personal hygiene, personal care and livelihood kits. They have been performing the following activities.

- Call for families benefited.
- Application of antibacterial gel.
- Order families and take a distance of 1.5 meters between each of them.
- Distribution of information as a protection measure against COVID 19

Municipal protection councils have guidelines for developing resilience actions and encouraging them to activate the local economy through the local economic development unit of the municipalities.

On May 18, UNICEF requested ChildFund to make changes to the ongoing grant “Strengthening the methodology for the progressive eradication of physical punishment” (Job Code 3-0380D) in which consisted of redirecting all activities and remaining amount of \$91,678 to new activities being one of them: 2. Delivering a booklet (4 sides) to 1,500 families in the department of Santa Bárbara and Copan containing key messages related to the contents covered by the Methodology, and follow-up cellular phone text messages. These materials will be developed and designed by the UNICEF and ChildFund International technical team.

On June 09 we sign a new workplan with UNICEF to the ongoing grant “Strengthening the methodology for the progressive eradication of physical punishment” (Job Code 3-0380D) which consisted of redirecting all remaining activities and the amount of \$91,678 to the COVID 19 Pandemia Emergency Response in which consist of delivering a booklet (4 sides) to 1,517 families in the departments of Santa Bárbara and Copan containing key messages related to the contents covered by the Methodology for the progressive eradication of physical punishment, and follow-up cellular phone text messages. These materials will be developed and designed by the UNICEF and ChildFund International technical team.

The community protection mechanisms continue to actively supporting the giving of cash, vouchers, grocery and hygiene kits, ensuring and verifying that each beneficiary keeps the biosecurity orders and measures.

Developing the topics of children rights infringement with community leaders and monitoring the action plan of the communities through the use of virtual platforms, strengthening the knowledge of Community Protection Measures during the COVID-10 emergency.

During the month of August virtual sessions have been carried out in order to strengthen CBCPM where the needs that prevent abuse, negligence, exploitation and violence were analyzed and prioritized, letting them know the derivation route for cases of rights infringement with the tracing report format articulated with municipal councils, DINAF and justice operators.

Municipal councils of rights guaranteeing participated in the conference on rights infringement through the Childhood Code and promotion of the derivation route of cases and its linkage to the justice operators and DINAF.

Activities were carried out through the different social networks to send key messages addressed to caretakers and families on how to deal with the stress, child protection, with messages that contribute to the prevention, protection and self-care of teenagers and young adults and infographics on: how to keep a good emotional health, how to help our children to express their emotions on how child abuse is manifested.

Example of the local partner CASM of messages and infographics

3.b.4. Help children continue to do their job: Learning

ChildFund’s Global Response Plan

While schools remain closed, we are supporting children’s learning through activities and tutoring sessions online or by radio. For students without reliable internet access, we are distributing home learning kits with materials and guides for their use.

The 30 of April we sign the new grant entitled “Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood ” with an amount of \$752,442, in which for the coming months we will support vulnerable families with children under 6 years old in the departments of Santa Bárbara, La Paz, Intibuca, Lempira, Ocotepeque, Copán. Children under the age of 6 their development could be affected by the emergency crisis of covid-19 for this reason is important to continue actions for the integral development of children particularly on children with disability, neurological risk and/or development below the curve. As an emergency response we will deliver them 3,000 early stimulation sets with their respective booklet for they can continue their learning.

On June 16 we sent a proposal to TIGO entitled “**Learning and entrepreneurship with the cybermobile**” with the objective to support our youth in developing technological skills for entrepreneurship and digital self-learning through the pandemic crisis.

On July 31st we presented a proposal to Tinker Foundation entitled “**Support for children from urban and rural communities in Honduras with virtual tutorials including a focus on protection to improve learning in Mathematics and Spanish during the COVID-19 Pandemic**” the main objective is to “Strengthen essential competencies in Mathematics and Spanish for children with a strong probability of grade failure using alternative means to formal education and help prevent different forms of violence which may occur in the home”. We are planning to reach 3,000 children for the urban and rural communities from the departments of Francisco Morazán, Cortés and Santa Bárbara.

3.b.5. Other responses

The 30 of April we sign the new grant entitled “Support to the implementation of the work plan of the Strategy Criando con Amor with emphasis on Covid-19 for early childhood ” with an amount of \$752,442, in which for the coming months we will support pregnant women and newborns in the departments of Santa Bárbara, La Paz, Intibucá, Lempira, Ocotepeque, Copán with a diaper bag. We will deliver 2,716 diaper bags containing necessary supplies for a proper health care to newborns under this emergency.

- Budget

- o **Outline how we will use this funding with a rough topline budget.**
- o Potential subsidy funds (25% March & April) are planned to be expensed in either emergency/sanitation kits and/or cash transfers to sponsored families in need. Proposed actions will come from Local Partners.
- o As the response to the Covid-19 the Secretary of Development and inclusion (SEDIS) required ChildFund to make changes in the programmed activities to the new proposal “Integral Care System for Early Childhood “Criando con Amor” for the coming months April, May, and June e to support vulnerable families affected by the emergency. This emergency response consists of the following:
 - 7,000 hygiene kits for families with children under 6 years old.
 - 3,000 early stimulation sets for boys and girls with disabilities under 6 years of age.
 - 3,000 bags of food support to vulnerable families with children between the ages 2-6 years that have low weight who are in AIN-C Program (Cereal and milk).
 - 1,500 USBs for Community Media to send messages to the community in how to prevent the virus COVID-19.
- o We presented a proposal to the Canadian Fund Local Initiative of Honduras, Costa Rica, Nicaragua which consisted of the following (Not approved):
 - At least 80% of patients with chronic diseases receive timely medical treatment. (29% men and 71% women)

- 29 health centres equipped with personal protection supplies in the municipalities of Curaren, Alubaren, Reitoca, La Venta and Lepaterique in the department of Francisco Morazán.
- 29 community health centres have educational materials and support instruments to implement a communication plan on protection, prevention and self-care measures and what to do in the event of suspected symptoms or signs of COVID-19
- On July 31st, we presented a proposal to Tinker Foundation with the general objective that Children with a strong probability of grade failure improve essential competencies in Mathematics and Spanish, and learn about prevention of violence, using alternative means to formal education during the COVID-19 pandemic. We are expecting the following results:
 - 3,000 children and adolescents who are tutors and students in the Departments of Francisco Morazán, Santa Bárbara and Cortés improve learning in Mathematics and Spanish.
 - 3,000 children and adolescents can identify and protect themselves from different forms of violence.
 - 113 teachers have strengthened competencies in information and communication technology (ICT) are able to use the virtual platform.
 - Parents encourage their children to read using educational material on prevention of violence.
- The 10 of September we signed agreement with the Ministry of for the project “Health Immediate Public Health Response Program to Contain and Control Covid-19 and mitigate its effect on service delivery in Honduras (RISP-HO)”. The project contribute to the strengthening of the First Level of Care networks, facilitating timely attention to the population through support for strategic and operational epidemiological surveillance actions for preventing the spread of the disease, containing transmission, improving access and care of suspected and positive cases of COVID-19 in Honduras.
- The 15 of October we signed an agreement for the IV phase for the project “Clean Water for Honduras” with emphasis in Covid-19 prevention, this phase will have components such as multiple aspects geared towards COVID-19 prevention (clean water, hand washing stations for schools and health clinics, biosecurity kits for volunteers, Covid-19 prevention campaign, additional sachets with other nonprofit organizations, etc.)

Part 9 Media/Communications

- **List of media who will be or have been contacted with press releases.**
- The information in response to the emergency alongside photographs from donations and other actions will be sent via social media such as Facebook, Twitter, and Instagram. With educational and child protection messages.
- **List of emergency CO spokespeople, including name, location, contact information, and languages spoken.**

Rodrigo Bustos, Country Director, rbustos@childfund.org, 502 40161393

Waleska Zelaya, Advocacy and Communication Specialist, zzelaya@childfund.org, 504 99317903

Spanish, English.

- **Plans for collecting photos/videos/stories, e.g., should an outside photographer be hired?**
- Photographs from the actions and donations are captured by the focal points of communication and technicians who are inside the communities. By this moment, we have donated 2,000 hygiene kits for people at a high risk to contract the COVID19 in the south of Francisco Morazán, which will be distributed through health centers in the city. Water purification sachets have also been donated. The Photographs will be attached.
- It has also been made known about the donations of hygiene kits to DINAF
- It has also been made known about the donations of food, booklets and hygiene kits for people and SINAGER.
- It has also been made known about the donations of food and hygiene kits for people in different locations.
- It has also been made known about social media fund raising campaign by Covid-19.
- It has also been made known about the donations of food, booklets and hygiene kits for people.
- Children have made beautiful pictures a poetry and we share this in social media.
- It has also been made known about the donations of food, booklets and hygiene kits for people.
- It has also been made known about the donations of food, booklets, hygiene kits for people and thanks to sponsors.
- Communication messages has been produced to show food donations, booklets and hygiene kits for people, artistic expression for children, protection messages and a fund raising campaign by Covid-19.
- 6 new radio theaters are published in 6 different radios, which their topics are: protection, gender, referral routes, safety measures, etc.
- ChildFund Honduras website is ready to strengthen ChildFund image and local fundraising campaign.
- The video of the Virtual Forum on the impact of Covid 19 on unemployment as a cause of irregular migration, made by the CONFIO project, has been published. Videos on hand washing and radio theaters, among others.
- The launch event for the ChildFund Honduras fundraising webpage and portal was held.

The event was held virtually, with the participation of lawyer Lolis María Salas, director of the Child and Family Directorate, Dr. Elmer Villeda, director of KNH, Elena Quiroz from Social Responsibility Foundation and Patricia Hernández from Bank Credomatic as invited guests; also, with the assistance of representatives from organizations that works for children, private companies, the press and influencers.

A tour was made of the fundraising page and portal, where each donor can choose between the suggested amounts or place an amount of their choice, it must also indicate if it is a one-time donation or a recurring donation.

During the event, an allusion was made to ChildFund's work at the international level, ChildFund in Honduras, the importance of the cause that we promote, the importance of organizations that work for children. The cause for this initiative to raise local funds was

explained and the people was invited to donate for supporting a family during this pandemic. As it is necessary to show solidarity with those who live the consequences of Covid-19.

- -Three new radio stations aimed at young people were published, on two radio stations, one regional and one local.
- We designed a booklet for painting, for children, with information on covid prevention.
- We produce a podcast for young people, which is spreading on mobile phones.
- The three radio plays aimed at young people were published again, on two radio stations, one regional and one local.

We made a video to strengthen the work of the protection subcluster, related to how children are affected in their education by covid19.

As part of the work of the protection subcluster, an advocacy and communication team has also been formed in which we are working to improve the conditions of return to school. In addition, together we are deploying an educational campaign aimed at children to improve their habits in the face of covid19.

- A painting notebook for children was designed and will be printing in this quarter, "Recreate".
- A campaign for local fundraising has been launched in light boxes through the streets of Tegucigalpa.
- 6 new radioteatre are ready to be recorded, with messages on covid prevention and pandemic care.
 - **Key points for messaging and visibility, particularly any host-government sensibilities that must be considered.**
- We have prioritized messages for childhood protection in this context, prevention measures, such as washing hands, avoid contact, personality, misinformation, questions, and answers. Also government recommendations, such as staying at home, and following the health measures.
- **Support needed or requested from IO, GSS or Global Teams – whether onsite or remote.**

We need from P&P particularly from Business Development to consult with Children Believe if there will be time extension of the CONFIO Grants.

More families are getting food donation

Kenia receives help

My name is Kenia, I have two kids, Asli, an 8 year old and Manuel, a 5 year old. I feel very glad to receive this food provision, as the other benefited families I want to thank ChildFund, that through CASM has been present during this pandemic, who has affected us a lot.

I am a single mother and I don't have a formal job, I dedicate myself to help my parents in a small Pulpería.

Thank you very much.

Marina receives support

[Honduras] SITREP [20] [Nov 10, 2020]

My name is Mariana, I am a single mother. I have three daughters, who are 11, 16 and 19 years old.

During this Covid-19 emergency we have been affected since we are not able to do our daily activities. I dedicate myself to my three daughters, I wash other people's clothes, I do house keeping and make tamales for sale, I haven't been able to make these activities due to Covid-19.

My three daughters do their homework, catching up with school on the internet, they go to a neighbor's house who let's them use the internet.

During this season we have been following the bio-security measures such as hand washing and staying home.

We are very grateful with ChildFund, that through CASM has supported us with this food provision, which will be very helpful in my home, I thank every sponsor because this would not be possible without them.

Mrs. Lourdes

Before the emergence of COVID-19 I was selling tamales, mounds, cupcakes and food. Neighbors were looking for these products here in my house, but now, under this situation, I haven't been able to do it for fear of getting infected and infecting my daughters.

What situation has been the most difficult in this time?

There are several, getting sick and not being able to attend a care center. Between me and my daughter, we cooked medicinal herbs, gradually I was relieved.

We have also had a lot of difficulty with the online education system because you don't always have money to buy a top-up.

There is also no transport for this municipality, nor for the purchase of food.

For all this receiving the provision of #ChildFund, it was of great help, because we did not have many resources to buy the food. I live gratefully to the sponsors and to the people who make this kind of help possible, I know that all the families who received this support are too. Had it not been for food and hygiene materials, our situation would have been worse; one of a mother, she doesn't mind going hungry and struggling, but no one wants to see her daughters suffer, that makes you feel the worst human being on earth.

Moments from the launch event of the website and fundraising portal, attended by the director of the children's and family management, Loly Salas.

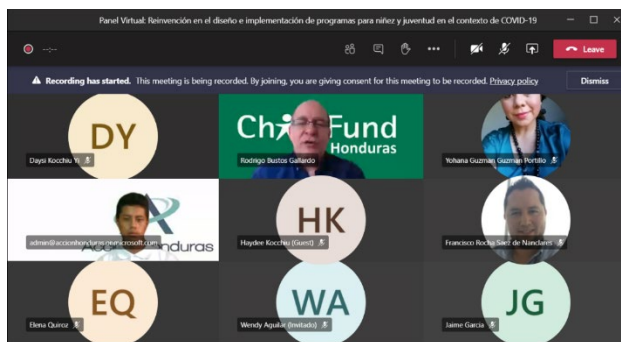

Official sponsor of the Central America Donors Forum (CADF 2020), which was held virtually from September 1-3, 2020. The CADF is a highly influential annual event organized by the Seattle International Foundation that unites the international philanthropic community with hundreds of corporate, government, and civil society leaders across Central America. As an official sponsor of the event, ChildFund will enjoy high-level opportunities to offer our significant contributions to the discussions on the 2020 theme of Reinvention & Resistance in Times of Crisis and promote the inclusion of youth leadership and participation. In addition, sponsorship offers us tremendous exposure, brand visibility, and international media coverage. Here's a snapshot of our engagement t:

- **PANEL Session:** ChildFund is lead a panel session on Weds, Sept 2nd at 2pm Eastern titled, "Program Delivery for Children & Youth in the Context of COVID-19: Adapting Development Approaches and Leveraging Technology & Partnerships". The panel was moderated by Mario Lima, and feature two youth champion speakers (including Astrid! –) from Honduras and Guatemala, Rodrigo Bustos, and private sector partners from TIGO Guatemala and the Honduran Foundation of Corporate Social Responsibility (FUNDAHRSE in Spanish)
- **Virtual Exhibit:** As a sponsor, ChildFund has leveraged the opportunity to demonstrate a united ChildFund Alliance partnership in the region and gain visibility for regional programming
- **Participation:** From ChildFund, the following colleagues participated live in the three-day Forum: Mario Lima, Rodrigo Bustos, Mike Vargas Corzantes, Allison Iraheta, Josue Rivera, Borys Chinchilla, Amber Stone (consultant), and myself. From our Alliance partners, Ramón Gonzales (CD Guatemala-Educo), Alicia Avila (CD El Salvador-Educo), Maria Isabel Lopez (CD Nicaragua-Children Believe), and Mauricio Castillo (CD Nicaragua-Educo).

[Honduras] SITREP [20] [Nov 10, 2020]

September 22, 2020 - ChilFund presented a webinar with the support of FUNDAHRSE to the corporate sector titled "Reinventing the design and implementation of programs for children and youth in the context of COVID-19", we expose ChildFund's emergency response with 2 youth speakers, 1 girl and the local partner Acción Honduras as panelists. We share our experience to 80 participants of different organizations and companies of the private sector in Honduras.

Family receives donation

Reina Alejandra, 11, her 2 brothers and 3 cousins now have food in her home, thanks to #ChildFund's food donation, in a community in Santa Barbara.

Her mother, Reina Isabel, 52, single, has been unable to generate income because her productive activity is the production of petates and in times of pandemic she has not been able to sell anything.

Food was scarce at his table in order to survive. With tears in her eyes, Mrs. Reina told us, "The day the food was given to me, we had nothing to eat, we received this blessing. My sons and nephews were happy because there is now food for several days. I am very grateful to ChildFund and its sponsors for their humanitarian actions in the community, because like me, there are many low-income, jobless families who can't buy beans."

We have a new infographic on ChildFund's response in Honduras
